

# THE MENU

IV COCKTAILS \$199

## ATHLETE / ANTI-INFLAM

Whether you are a weekend warrior or need help after hitting the Gulf a little too hard, rehydrate and relieve sore muscles with this muscle-soothing combo of Amino Blend, Decadron and Taurine.

**Pairs great with: Toradol & B-Complex.**

## IMMUNE

This hefty dose of Vitamin C, Glutathione, and a Mineral Blend, is a perfect combination of the essential nutrients needed for creating electrolyte balance and supporting the immune system. **Pairs great with: Zinc**

## SLIM + TRIM

This combination of fat-burning Amino Blend, B-Complex and vitamins helps complement these weight-loss programs for the best possible results. Whether you are looking to jump-start your results or maintain,

**Pairs great with: Amino Blend & Skinny B-12**

## ANTI-AGING / BEAUTY

This facial in a bag is crammed full of Alpha Lipoic Acid, Glutathione, and Biotin that will leave your tan skin glowing and beachy locks looking fresh and rejuvenated. **Pairs great with: L-Carnitine & Vitamin C.**

## HANGOVER

If yesterday's piña coladas are keeping you from playing today, look no further than this priceless hangover solution of Zofran, Decadron, Toradol.

**Pairs great with: B-Complex.**

## NAD

SM \$550 MD \$700 LG \$1000 XL \$1500

Fighting fatigue? This energy powerhouse IV will do wonders for you. NAD converts carbohydrates and fat cells into ATP, which is a great source of energy. Boosting your body's ATP levels can help manage diabetes and cancer, as well as improve mental clarity, concentration and memory.

## BOOSTERS

ONE FOR \$30 / FIVE FOR \$125

### SKINNY B-12

*MIC and B12. Breaks down fatty deposits, increases metabolism, supports the liver in detoxification, and increases energy levels. B12 boosts the production of oxygen-carrying red blood cells and neurological function.*

### AMINO BLEND

ONE FOR \$45 / FIVE FOR \$200

*This combination of aminos plays a major role in protein metabolism, performance recovery time, muscle building, increasing HGH, vitality and blood flow.*

### VITAMIN C

*Immune booster, heart health, collagen synthesis, promotes healing.*

### B COMPLEX

*A direct impactor of energy levels, brain function, cell metabolism, cell health and immune function.*

### L-CARNITINE

*Ultimate fat burner. Converts fat into energy and decreases fatigue.*

### ZOFRAN

*Medication used for treating and preventing nausea and vomiting.*

### TAURINE

*Amino acid, improves athletic performance and cognitive function.*

### ALPHA LIPOIC ACID

*Antioxidant, slows skin aging, improves nerve function, gives skin a healthy glow.*

### LIPO C

*MIC, Carnitine, B1, and B5. Promotes body fat reduction and preserves lean muscle tissue while speeding up the resting metabolic rate.*

### TRI IMMUNE BOOST

ONE FOR \$45 / FIVE FOR \$200

*A power-packed immunity blend of Glutathione, Vitamin C, and Zinc, this is the ultimate immune system enhancer.*

---

## ADDITIVES

\$25 EACH

### DECADRON

*Similar to Cortisol produced in the adrenal glands, this corticosteroid is used to combat inflammation.*

### GLUTATHIONE

*"Master antioxidant" flushes environmental toxins and free radicals, strong cancer-fighting properties, immune booster.*

### TORADOL

*In the NSAID group. Think: IV Ibuprofen, only stronger. Works wonders for swelling and pain.*

### MAGNESIUM

*Helps boost exercise performance, calms nerves and anxiety, relieves muscle aches & spasms.*

### ZINC

*Essential nutrient, aids in wound healing, DNA synthesis and immunity.*

# FUNCTIONAL TESTING

## MICRONUTRIENT TESTING

\$549

Micronutrient tests measure the function of 35 nutritional components including vitamins, antioxidants, minerals and amino acids within our white blood cells. Scientific evidence shows us that analyzing the white blood cells gives us the most accurate analysis of a body's deficiencies.

## FOOD SENSITIVITY TESTING

\$249

A food sensitivity blood test measures your IgG reactivity levels for different kinds of food, using a small sample of blood. High IgG reactivity for a certain food indicates there's a possibility that food may be involved with causing your symptoms.
